# Shreya **Sinha**

UI/UX Designer · Product Designer · Web & Product

Phone: +91 78691 06977 | Email: hello@shreyasinha.co.in | Portfolio: shreyasinha.co.in | LinkedIn: shreyasinhadesigns

## Summary

Product designer with 5 years across B2B SaaS, AI platforms, and consumer apps, owning design end to end from research through shipped product and governed design systems. Designs AI-native features with trust built into the architecture, source attribution, human-in-the-loop review, and graceful states for every edge case and error, and treats usability testing as the deciding vote on what ships rather than opinion. Has led a small team of designers through concurrent client delivery, built a design function and culture from nothing at a growth-stage company, and presents design and product decisions directly to C-suite and executive stakeholders.

## Skills

| | |
|---|---|
| **UX Design** | Product Design, UI/UX Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping |
| **Research** | User Research, Usability Testing, Competitive Research, Heuristic Evaluation |
| **AI Product Design** | AI Product Design, Agentic UX, Conversational AI UX, Multi-Turn Interaction Design, Human-in-the-Loop Design, Explainability Design, Source Attribution Design, AI Trust Architecture |
| **AI Tools** | AI-Augmented Design Workflow, Prompt Engineering, Vibe Coding, Claude, ChatGPT, Cursor, GitHub Copilot, Midjourney |
| **Design Systems** | Design Systems, Component Libraries, Design Tokens, Auto-Layout, Variants, Design System Governance, Accessibility Awareness |
| **Tools** | Figma (Components, Variables, Auto-Layout, Dev Mode, Prototyping, FigJam), Adobe Illustrator, Adobe Photoshop, HTML, CSS, Basic JavaScript |
| **Leadership** | Design Team Leadership, Design Critique, Design Mentoring, Stakeholder Management, C-Suite Communication, Presentation and Storytelling, Agile Delivery |
| **Domains** | B2B SaaS, Enterprise Software, AI Platforms, Government Contracting, Health Tech, Fintech, EdTech, Consumer Mobile Apps, E-commerce |

## Experience

### RedCrackle — *Remote*

UI/UX Lead — *Sep 2021 - Present*

- Designed RocketPages, a no-code website builder, from zero as the sole designer, shipped and now used by 30+ businesses internationally, by architecting a three-mode Content, Style, and Layout editor and building a 25+ component design system in Figma.
- Designed Safal AI, a B2B AI contract intelligence platform end to end for a US government contracting firm, attaching source attribution to every AI-generated insight and keeping a human in the loop on every contract decision, cutting time spent searching and validating opportunities by a client-reported 48%.
- Rebuilt PDF to Web, a developer documentation platform for MuleSoft, based on usability testing that invalidated the original navigation assumption, rebuilding the information architecture around observed behaviour, increasing search success rate from 48% to 72%.
- Led a small team of designers delivering Eightfold AI Career Pages for five global enterprise clients at the same time, running design critiques and cross-country stakeholder reviews while holding one consistent system across five separate brand guidelines.
- Designed Earthly Lunar, an enterprise observability dashboard with two distinct views, a management summary and a developer diagnostic breakdown, specifying every service state with engineers before build started.

### The Subtle Things — *Remote*

Freelance Product Designer (Part-Time) — *2022 - 2025*

- Designed Doc Vitals, a multi-step AI health companion flow, pushing back on a brief for instant AI output in favour of a questionnaire-first trust architecture, increasing questionnaire completion from 47% to 65% (client-reported via Amplitude).
- Redesigned Vitals Thailand, a health e-commerce platform, across 14 page types for web and mobile, owning the layout, colour, typography, and visual hierarchy throughout, and lifted conversion rate from 3% to 6% after launch.
- Ran an AI-augmented design sprint for Ebb across 8 tools including Claude, Cursor, and GitHub Copilot, designing every state (empty, loading, data-filled, error) and shipping a complete fintech app design with a working HTML, CSS, and JavaScript prototype in 10 days.
- Shipped RootWords, a gamified vocabulary app, live on the App Store and Google Play, designing four game modes, a coin reward economy, and the full brand identity, achieving a 24% DAU/MAU ratio (per App Store / Google Play Console) for repeat engagement.

**Daystar Growth** *Remote*

Head of Design (Part-Time) *2023 - 2025*

- Reported directly to the CEO of a growth consultancy, collaborating with him on brand positioning and client-facing design strategy as the first and only designer in the organisation.
- Built design standards, process, and culture from scratch where none existed, translating business goals into consistent visual and communication output across every surface in the business.

**Zariin Jewelry, Roma Narsinghani** *India*

Design Intern *2020 - 2021*

- Designed social media assets and the Men's Money Clip collection for a premium jewelry brand in Adobe Illustrator and Photoshop, and built 3D product prototypes in Rhino 3D.

## Education

**National Institute of Fashion Technology (NIFT)** *India*

B.Des, Fashion and Lifestyle Accessories (Jewelry and Accessory Design) *2017 - 2021*

## Certifications

2021 **Google UX Design Certificate**, Coursera

2026 **Generative AI Bootcamp**, Outskill / GrowthSchool

**Government Certification in Generative AI**
